

FY 2024 GGR COMPARISON

All of NIGC's eight regions showed an increase over FY 2023. This table also shows the comparison of the overall FY 2024 GGR versus FY 2023 GGR. The overall FY 2024 GGR was \$43.9 billion, over 4.6% higher than the historic FY 2023 GGR of \$41.9 billion. It is important to note the year-over-year GGR change by region should not be used as a direct indicator of the local economy in any specific region. Many other factors could have an impact on the GGR at the regional level, such as new gaming operations, expansions or renovations to existing operations, temporary or permanent closures, regulatory changes, or changes in an operation's fiscal year.
